ABSTRACT OF AN ACT

Passed in the Thirty-third Year of His present Majesty, Cap. 52. Sec. 70, precluding the Return to their Duty of the Civil and Military Servants, after an absence of Five Years.

And be it further enacted, that no person who shall have held any Civil or Military Station whatever, in India, in the Service of the said United Company, being under the rank or degree of a Member of Council, or Commander-in-chief of the Forces,* and who, having departed from India by leave of the Governor General in Council, or Governor in Council, shall not return to India, within the space of five years next after such departure, shall be entitled to any rank or restoration of Office, or be capable of again serving in India, either in the European or Native Corps of Troops, or in the Civil Line of the Company's Service; unless, in the case of any Civil Servant of the Company, it shall be proved, to the satisfaction of the Court of Directors, that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India, by a vote or resolution passed by way of ballot, by three-parts in four of the Proprietors assembled in General Court, specially convened for that purpose, whereof eight days previous notice of the time and purpose of such Meeting shall be given in the London Gazette, or unless, in the case of any Military Officer, it shall be proved, to the satisfaction of the said Court of Directors, and the Board of Commissioners for the Affairs of India, that such absence was occasioned by sickness or infirmity, or some inevitable accident.

* *Vide Abstract of the Act of the 53d Geo. 3. cap. 155, page lxix.*

RESPECTING

Military Officers retiring from the Company's Service.

Every officer after twenty-five years service in India, three years for one furlough being included, is allowed to retire with the pay of the rank to which he has attained; but such pay is to be the same only as that allowed to officers of infantry.

A member of the Medical Board, who has been in that station not less than two years, and not less than twenty years in India, including three years for one furlough, is permitted to retire from the service, and allowed £500 per annum.

A surgeon of a general hospital, or superintending surgeon, who has been in that station not less than two years, and whose period of service has been not less than twenty years, including three years for one furlough, as above, is permitted to retire from the service, and allowed £300 per annum for life.

All other surgeons and assistant surgeons attached to the military, are permitted to retire from the service on the pay of their rank, after having served in India not less than twenty years, including three for one furlough.

A chaplain after eighteen years service, (ten of which at a military station,) including three years for one furlough, is allowed to retire with the pay of major.

A chaplain having served ten years in India, whose constitution will not admit of his continuing in the service, may retire on the half pay of major; after seven years on the half-pay of captain.

A commissary, or deputy commissary of ordnance, not being a commission officer, is allowed to retire on full pay, if he has served twenty-seven years in India, of which twelve must have been in the ordnance department; twenty-five years, fourteen of which in that department; or twenty-two years, seventeen years of which in the ordnance department.

A conductor of stores is allowed to retire on £60 per annum after twenty-five years actual service in India.

Every lieutenant-colonel, major, captain, or captain-lieutenant is allowed to retire with the *half pay* of the rank to which he has attained, in case his health shall not permit him to serve in India.

A lieutenant having served thirteen, or an ensign nine years in India, including three years for a furlough, may retire on the *haf pay* of his rank, in case his health shall not permit him to serve in India.

A subaltern officer, or military assistant surgeon, having served six years in India, is permitted to retire on the *half pay of ensign*, if his constitution should be so impaired as to prevent the possibility of his continuing in India.

Every officer returning on furlough, and wishing to retire from the service, must make a declaration to that effect, within twelve months after his arrival in England; and in case of his neglecting so

to do, he must at the expiration of his furlough, either return to India, or be held to have relinquished the service, and not be entitled to retire on pay, unless he has continued to serve in India, from his first arrival, for the space of *twenty-two years*, without having a furlough; in that case he is allowed *two* years, before he shall be called upon to signify his intention of retiring, but he can only be allowed the pay of the rank he held at the expiration of twelve months from his arrival in Europe.

Officers retiring from the service after two years furlough, will be considered to have retired at the expiration of two years from the date of their landing in England, unless they shall have previously obtained an extension of their furlough, and officers who shall retire after having obtained an extension of furlough, will be considered to have retired from the date of the expiration of such additional furlough, or from the time when the requests of such officers to retire or resign, are laid before the Court, which ever shall happen first.

FURLOUGH.

Officers (of whatever rank) must be ten years in India, before they can be entitled (except in case of certified sickness) to their rotation to be absent on furlough, and the same rule is applicable to assistant military surgeons. The furlough to be granted by the commander in chief at each presidency, with the approbation of the respective governments.

A chaplain after seven years residence in India, is allowed to come home on furlough and receive the pay of major. Should he come home from sickness prior to this period of service he is allowed the pay of captain only.

A conductor of stores is allowed furlough pay, only in case of coming home from sickness.

The period of furlough is three years, reckoning from its date to the day of the return of the officer to his presidency.

All Officers finding it necessary to solicit a further leave of absence, on account of sickness, must transmit with their Letter of application for such leave, a Certificate signed by at least two Gentlemen, eminent in the Medical Profession, describing the nature of the applicant's complaint, and stating it to be their opinion that the circumstances of the case render a compliance with his request absolutely necessary. Also previously to such extension of furlough being granted, such further proof shall be adduced by personal examination, or, by such other evidence as shall be deemed satisfactory.

Officers abroad in any part of Europe, applying to remain a further time from their duty, on account of Sickness, are to furnish a Certificate of two eminent Physicians, with the attestation of a Magistrate, that the Persons who signed the Certificate are Physicians.

No officer on furlough can receive pay for more than two years and a half from the period of his quitting India, excepting colonels

of regiments, and those of the rank of lieutenant colonel regimentally, when promoted to that of major general; the latter are then allowed to draw their regimental pay beyond the above period.

AT A COURT OF DIRECTORS,

HELD ON

Friday, the 1st *March* 1811.

A report from the Committee of Correspondence, dated this day, being read, calling the court's attention to the evident misapprehension of the meaning of the 70th section of the act of the 33d of his present Majesty, cap. 52,* as to the time of absence after which civil and military officers may return to the Company's service in India.

Resolved,—That military officers wishing to avail themselves of the provision above referred to, must arrive in India within five years from their departure from thence, or otherwise they will not be entitled to any pay, rank, or military authority, unless they shall have a permission by the Court of Directors to return to India, having previously proved to the satisfaction of the Court, and to the Board of Commissioners for the affairs of India, that their absence was occasioned by sickness or infirmity, or some inevitable accident.

Extract from the

REGULATIONS

as to the Nomination of

STUDENTS AT THE EAST-INDIA COLLEGE,

With a View to their future Appointment as WRITERS *in the Service of the* UNITED EAST-INDIA COMPANY; *and Preparatory Instructions to Persons who may be so nominated.*

No Candidate for the College can be nominated thereto, until he has completed the sixteenth year of his age. And no person who has been in the Army or Navy, or has been expelled from any place of education, will be nominated to the College; but

this regulation, so far as it regards the professions above-mentioned, is not to affect any one who, previously to the 14th July 1816, may have quitted either of them, with a view to the East-India service, and may have qualified himself by education for admission into the College.

The parents or guardian of every candidate for the college, with the exception of those above-mentioned, will be required to address the following letter to the nominating Director:—

"Sir:—I beg to assure you on my honour, that my ———, to whom you have been so good as to give a nomination to the college, has not been in the Army or the Navy, and that he never was expelled from any place of education.——

I have the honor to be, &c."

The parents or guardian of every candidate, so excepted, will be required to address the same letter to the nominating Director, expunging that part of it which relates to the Army and Navy.

By the Act of the 33d of Geo. III. no person can be appointed a Writer in the company's service, whose age exceeds twenty-two years; and by the Act of the 53d of Geo. III, all students for the college must remain there four terms;—consequently, no person whose age exceeds twenty can be nominated as a student. All these terms are probationary, but the first is to be considered as such in a particular sense; and if any student shall not, in the judgment of the college council, give satisfaction in that term, he will not be permitted to return to the college.

Candidates for the college must produce the under-mentioned documents, previously to their being nominated as students.

An extract from the parish register of their birth or baptism, properly signed by the minister, churchwarden, or elders; and, in addition thereto,

A certificate, agreeably to the following form, signed by the parent, guardian, or near relation.

"I do hereby certify, that the foregoing extract from the "register of baptisms of the parish of ———, in the county "of ———, contains the date of the birth of my son ———, who "is the bearer of this, and presented for a nomination as a student "at the East-India College, by ——— Esq.; and I do further declare, "that I received the said presentation for my son ——— gratuitously, "and that no money or other valuable consideration has been or "is to be paid, either directly or indirectly, for the same; and that "I will not pay or cause to be paid, either by myself, by my son, "or by the hands of any other person, any pecuniary or valuable "consideration whatsoever, to any person or persons who have "interested themselves in procuring the said presentation for my "son from the Director above-mentioned."

"Witness my hand, this ——— day of ———, in the year of our Lord, ———."

In the event of no parish register existing or to be found, an affidavit of such circumstance is to be made before a magistrate, to the following effect, viz.

"I, C. D., presented as a student for the East-India College, "by ————, do make oath and swear, that I have caused "search to be made for a parish register, whereby to ascertain my "age, but am unable to produce the same, there being none to be "found; and, further, I make oath and swear, that from the in-"formation of my parents (and other relations), which information "I verily believe to be true, that I was born in the parish of——, "in the county of ————, on ————, in the year ————, "and that I am not at this time under the age of sixteen, or above "twenty years.

"Sworn before me, "this ——— "Day of ———

"Witness my hand, this —— Day "of ——, in the year of our "Lord ——

"C. D."

The parent, guardian, or near relation, must then add his certificate as to the truth of the affidavit, which must be similar to that ordered to be annexed to the extract from the parish register.

The above-mentioned certificate (and affidavit, in cases where an affidavit shall be required) are to be annexed to the petition to be written by the candidates, and they are to sign a declaration thereon, that they have read these printed instructions. The same declaration is to be signed by the parent, guardian, or near relation of the candidates respectively.

Candidates are to produce certificates from the person under whom they have received their education, stating the nature of that education, and the proficiency they have made therein; and also certifying as to their mental ability, disposition, and character.

Candidates will be interrogated in an open Committee of college, as to their character, connections, and qualifications, conformably to the General Court's Resolution of the 6th July, 1809.

On a student's appointment to be a Writer, a legal instrument is to be entered into by some one person (to be approved by the Court of Directors) binding himself to pay the sum of £3,000, as liquidated damages to the Company, for breach of a covenant to be entered into that the student's nomination hath not been in any way bought, or sold, or exchanged for any thing convertible into a pecuniary benefit.

Misconduct of students at college, will be attended with expulsion therefrom; and those who do not pass with credit the final examination will not be admitted into the civil service of the Company. No person expelled the college will be admitted into any line of the Company's service.

AT A COURT OF DIRECTORS,

HELD ON

Wednesday, the 9th August, 1809.

Resolved, That any person who shall, in future, be nominated to a situation, either civil or military, in the service of this Company, and who shall have obtained such nomination in consequence of purchase, or agreement to purchase, or of any corrupt practice whatever, either direct or indirect, by himself or by any other person, with or without his privity, shall be rejected from the service of the Company, and ordered back to England, if he shall have proceeded to India before a discovery of such corrupt practice be made: and if such situation shall have been so corruptly procured by himself, or with his privity, he shall be rendered incapable of holding that, or any other situation whatever, in the said service. Provided always, that if a fair disclosure of any corrupt transaction or practice, of the nature before described, wherein any Director has been concerned, shall be voluntarily made by the party or parties engaged in the same with such Director, the appointment thereby procured shall be confirmed by the Court.

(Signed) WILLIAM RAMSAY, *Secretary.*

Report of the Result of the General Examination of the Students at Hertford College, at the close of the Second Term of 1817.

On the 4th December a Deputation of the Court of Directors proceeded to the College, for the purpose of receiving the Report of the result of the general Examination of the Students.

The proceedings which took place in the hall were as follows:

The Clerk read the List of the Students who had gained prizes and other honourable distinctions, as well as the list of the twelve best Persian writers, copies of which are annexed to this report.

Mr. Wm. R. Young read an English Essay, of his own composition, with which the Committee were highly gratified. The subject of it was the mutual dependence of Science and Commerce upon each other.

The Students selected for the purpose read and translated in the Sanscrit, Bengalese, Arabic, Persian and Hindoostanee Languages; the manner in which they acquitted themselves gave great satisfaction.

Prizes were distributed agreeably to the List before-mentioned.

The Clerk read twice the rank of the Students leaving the College, the first time distinguishing the class to which they belonged, and the second distinguishing their number in the List.

After which he announced when the next term would commence.

And the business of the day terminated with the Chairman addressing the Students to the following effect:

He assured them of the pleasure it afforded him to express the satisfaction derived by the Committee, from the Report made by the Council, of the literary exertions of the Students, and their general good Conduct, and exhorted them to persevere in the same course; he lamented that there was one exception from this favorable Report; one Student whose conduct had not been satisfactory: he noticed in terms of commendation those Students, Messrs. Clarke, Gordon, Willoughby, Davis and Campbell, who had voluntarily applied to the study of Sanscrit, but in bestowing that commendation, he desired it might be distinctly understood that such application was not to be given to the neglect of other studies which were required by the statutes: he expressed a hope that in future terms the conduct of the Students would be as satisfactory as in that then on the point of expiration, he assured them of the gratification the Court would derive from such Reports; he exhorted those Students who were to remain in the College so to demean themselves as to

urnish ground for a continuance of similar Reports. To those who were about to leave the Institution he addressed a few words, which, he said were much the same as those he addressed at the close of the preceding Term, to the Students then under similar circumstances.

He recommended to them to apply themselves, while at sea, to the improvement of the various branches of literature they had studied at the College, which would the sooner qualify them, on their arrival in India, for active employment, and would also beguile the tedious hours of a long voyage. He cautioned them, on their arrival in India from being prejudiced against the Natives from difference of colour, of language, of manners, and customs, and also against letting their minds be prepossessed by the reports which of late years, had been industriously circulated in this country to their prejudice. That from his own experience, during a residence of many years among them, he knew them to be a mild, inoffensive, well disposed, benevolent race of men, and earnestly recommended, that they should on all occasions be treated with humanity and kindness.

COLLEGE SCHOOL.

Besides the College above described, the Company patronize a School subordinate to it, and under the superintendance of the Principal, into which boys may be admitted at an early age, and in which they will be taught the elements of general learning, and such other accomplishments as are the usual objects of instruction in the larger seminaries of this country. Especial attention will be paid also to such parts of education as may serve to qualify them for public business, and for the higher departments of commercial life.

Though this School be designed as introductory to the College, it is not to be understood that the Company is pledged to make it the sole channel of an appointment to the College itself; but, it is nevertheless proper to observe, that those who shall have passed through both institutions, will enjoy the advantage of an uniform system of education, begun in early youth, and continued to their departure for the duties of their public stations.

Notwithstanding that an intimate connection is intended to subsist between the College and the School, it is nevertheless to be understood, that, whilst the College is exclusively appropriated to persons designed for the Civil Service of the Company alone, the School will be open to the Public at large.

The Rev. Dr. Luscombe, is the Head Master of the College School; to whom the annual sum of seventy guineas is to be paid for each pupil, above the age of ten years; and fifty guineas for each pupil under that age; which sums, without any additional charge, will include instructions in the Greek, Latin and modern languages, writing, arithmetic, mathematics, drawing, and dancing. A few pupils of a more advanced age are received into the School, at 100 guineas per annum, to whom some superior accommodations are granted.

N.B. Pupils are qualified in this School to pass their examinations for admission into the Company's Military Seminary.

The Rev. Dr. Luscombe, *Head Master.*
The Rev. Thomas Wharton, *Second Master.*
Mr. F. Fallows, A.B. *Mathematical Master.*
Mr. D'Herbais, *French Master.*
Mr. Belfour, *German, Spanish, and Portuguese Master.*

This fund, which has been instituted by the Honorable Company's Army of this Presidency, has for its objects;

1st.—To provide for the widows and children of Officers, left destitute of an adequate maintenance.

2dly.—To enable sick Officers, when destitute of other resources to proceed home for the recovery of their health.

3dly.—To afford to Subalterns and Captain Lieutenants, destitute of other resources, an allowance during their residence at home, which, being added to their pay from the Honorable Company may conduce to their comfort, and to the recovery of their health.

And 4thly.—To enable officers, at home on Sick Certificate, to return to their duty in India, by granting them when destitute of other resources, an allowance in aid of their passage-money.

The Widows of Officers, subscribers to the fund, whose annual income does not exceed a moiety of the under-mentioned pensions, are entitled to receive from the fund the following annuities during their widowhood; unless their Income may exceed the Moiety of the Annuity to which a Widow may become entitled; in which

case, she will only receive the amount that may remain after such excess has been deducted. They are, however, permitted to marry again without forfeiting their right to resume their annuities, if left destitute a second time, whether their second husband may have been a Subscriber, or not, if he has, the widow is entitled to one annuity only, but may take that which will give her the largest income.

Agents of the Fund in Europe, Messrs. Smith, Rickards & Co.

This Fund, which has been recently instituted by the Honourable Company's army under this Presidency, on similar principles to that which has been so many years in successful operation in the army of Madras, has for its objects:—

To provide for the families of officers left by their death, destitute of an adequate maintenance, and to assist officers unprovided with aid by the regulations of the service, or from their own resources under such circumstances of urgent sickness, as renders a voyage to England necessary for the preservation of their lives, and to afford such further aid as the funds shall admit in cases of less urgent necessity.

This Institution holds out advantages of so superior a kind, that all the officers of the Bombay army, with a very few exceptions, are become members of it, it is also honoured by the support and patronage of the Right Honourable the Governor in Council, by whom it has been recommended to the liberal consideration of the Honourable Court of Directors.

Officers must have served ten years on the island (except in case of sickness, of which satisfactory proof will be required), before they can be allowed a furlough, the period of which is two years and a half, reckoning from the time of their leaving the island until their return to it. During this time they are allowed the pay of their rank.

The pay of these officers on retirement also is regulated in the same manner. The period of servitude to entitle them to which, is twenty-two years, including one furlough.

A Chaplain after seven years service, is allowed to come home on furlough and receive the pay of Major. Should he come home from sickness prior to this period of service he is allowed the pay of Captain only.

A Chaplain after fifteen years service, is allowed to retire on the pay of Major. After ten years, if his health will not allow him to continue in the service, on the half-pay of Major; and after seven years, if prevented by the same cause, from continuing in the service, on the half pay of Captain.

BENGAL CIVIL FUND,

Instituted October, 1804.

An Abridgement of the Rules of this Institution.

The object of this fund is to provide for the maintenance of the widows and children of such of the subscribers as may not, at their demise, leave property sufficient for the subsistence and education of their families; also to assist in maintaining such of the subscribers themselves as may be compelled by Sickness or infirmity to return to Europe, without an adequate provision for their support.

It is at the option of the civil servants of this establishment, either to subscribe thereto, or otherwise.

The following are the rates of contribution;

	Sicca Rupees.
If the salary or other public allowances of the subscriber, be not more than 1000 Sa. Rs per mensem, his monthly subscription to be.................	10
If more than 1000 and not above 2000.............	20
If more than 2000 and not above 3000.............	30
If more than 3000 and not above 4000.............	40
If more than 4000	50

The contribution payable by each subscriber is deducted from his monthly allowances by the sub-treasurer, collector, or other officer, paying the same, and transferred to the treasurer of the fund. The committee of managers may, in particular cases, admit a deviation from it, if a different mode of payment shall be desired by any subscriber.

All applications for admission to the benefits of the fund are to be made to the committee of managers; and to be accompanied with the necessary information, documents, and proofs, to enable the committee to ascertain the circumstances and situation of the party applying. The managers, after calling for any further information or evidence which may appear to them requisite, are to submit the whole case for the determination of the subscribers, at the next general meeting. In cases of emergency and distress, however, when the managers may consider the claim valid, they are authorised to advance such proportion of the fixed allow-

ances hereafter specified, as may appear to them indispensably requisite, until a determination can be passed by the subscribers.

Any subscriber to the fund, who may be compelled by sickness or infirmity to proceed to Europe for the recovery of his health, and shall not be possessed of sufficient means to pay for his passage to Europe, and support himself and family during his necessary absence from India, on his making a declaration upon oath to this effect, or otherwise establishing the fact, and producing a certificate of the necessity of his return to Europe, solemnly the attested by the surgeon who has attended him, and countersigned by a member of the medical board, with the consequent permission of government for his proceeding to Europe, will receive from the fund a donation, equivalent to the company's allowance for a twelvemonth to a servant, of his rank when out of employ, viz. if he be a senior merchant, 4000 sicca rupees; if a junior merchant 3000 sicca rupees; if a factor or writer 2000 sicca rupees. At the expiration of one year if the party be in Europe, a further donation shall be made to him, on his application to the agents for the fund in England, equal to that advanced to him, upon his embarkation from India; at the exchange rate of two shillings and sixpence for the sicca rupee, viz. £500, £375, or £250, according to his rank in the service at the time of his leaving India. Should the imperfect recovery of his health render it necessary to protract his stay in Europe beyond the second year; and besides his own declaration upon oath to this effect, he shall produce to the agents for the funds in England, a certificate solemnly attested by a respectable physician, or other professional gentleman of established practice, that the state of his health has not admitted of his previous return to India, he will, at the commencement of the third year after his embarkation from India, receive, from the agents in England, a donation equal to a moiety of the amount paid to him in the preceding year, and another moiety on a similar declaration and certificate at the end of six months, viz. two years and a half after his embarkation from India, if he be still in Europe, which is to be considered to include all claims whatever upon the fund to the period of his return to India: passage money is granted in cases appearing to require it, in addition to the sums above specified, and in such cases, the amount is to be determined by a general meeting of the subscribers.

On the death of any subscriber to the civil fund, who may not be possessed of property sufficient to provide for his family, and may, consequently, leave a wife, cohabiting with him, or maintained by him and living under his protection to the period

of his decease, without an adequate provision for her support, as hereafter specified; if, on the information, documents, and evidence which may be submitted by her, to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers that she is a proper object, a pension is to be assigned to her, under the provisions and limitations stated in the following article. Provided that nothing contained therein, or in any other part of the rules for this institution, shall be considered to entitle to the benefits of it, any widow, who may have been legally divorced or separated from her husband for adultery; or who, at the period of her husband's demise may have quitted his protection, and be living in a state of notorious adultery, though not divorced or separated from him by law.

First. If the widow, at the time of her husband's death, be resident in India, and be left without an income exceeding one hundred rupees per mensem, a pension to be assigned to her of three hundred rupees per mensem, during her residence in India. If the widow be not resident in India at the death, or shall afterwards quit India, and time of her husband's her income, from her husband's estate or otherwise, shall not exceed one hundred pounds per annum, the pension to be assigned to her to be three hundred pounds per annum.

Secondly. If the income of the widow, resident in India at the death of her husband, be more than one hundred sicca rupees per mensem, but exceed not four hundred rupees, or if the widow be not resident in India at the time of her husband's demise, or shall afterwards quit India, and her income be more than one hundred pounds per annum, but shall not exceed four hundred pounds per annum, the pension to be assigned to her is to be such as will make up her income to four hundred rupees per mensem, during her residence in India, or four hundred pounds per annum in Europe, or elsewhere.

Thirdly. In the event of a widow, to whom a pension may have been assigned acquiring subsequently by inheritance, bequest, or otherwise, any property or income which, with the property left to her at her husband's decease, and the pension received by her, may render her total income including her pension from the fund more than five hundred rupees per mensem, during her residence in India, or more than five hundred pounds per annum in Europe, or elsewhere, her pension from the fund is liable to abatement, proportioned to the excess of her entire income, including the pension, above the sum specified; or to be altogether discontinued, in the event of her property or income, exclusive of the pension assigned to her from the fund, being equal to the full sum of five hundred rupees per mensem in India, or five hundred pounds per annum in Europe, or elsewhere.

Fourthly. All pensions of widows are also liable to discontinuance on their remarriage. But in the event of their being again left in a state of widowhood, without an adequate provision for their support, they may be again admitted to the benefits of the fund, under the same provisions and limitations as on their original admission.

Fifthly. The pensions to widows. who may be admitted to the benefits of the fund, are to be paid in advance half yearly to themselves or to their authorized agents. But the acknowledgment of the widow herself shall be taken for all sums paid in her behalf; and shall contain a solemn declaration that her entire income including the pension received by her, does not exceed the sum limited above.

Widows are, if they have no means of paying for their passage to Europe, supplied from the fund with such sum as may appear requisite for that purpose

If any subscriber to the fund shall die without the means of providing for his family, and shall consequently leave a child or children, born in wedlock, without an adequate provision for their maintenance; and on the information, documents, or evidence which may be submitted in their behalf to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers, that they are proper objects, an allowance for their maintenance and education shall be assigned from the fund, under the provisions and limitations contained in the following article:

First. If the child or children of the deceased subscriber be left without any provision, the allowance for the education and maintenance of each child, to be granted from the fund, in India or in Europe, is to be according to the age of the child, as follows, viz.

Till five years of age, thirty rupees per mensem in India; or thirty pounds per annum in Europe.

From the commencement of the sixth year, to the end of the eighth, forty rupees per mensem in India; or sixty pounds per annum in Europe.

From the commencement of the ninth year, to the end of the eleventh, fifty rupees per mensem in India; or eighty pounds per annum in Europe.

From the commencement of the twelfth year, sixty rupees per mensem, in India; or one hundred pounds per annum in Europe.

Secondly. If any provision be left by a subscriber for his child or children; or if after his death they shall at any time become possessed of property or income by inheritance, bequest, or otherwise; but not such as to afford the sums specified for their education and maintenance; the allowances to be granted from the fund are to be such as, in addition to the property or income possessed by them, will make up the several sums above specified, accord-

ing to their respective ages; and as they may be resident in India or in Europe.

Thirdly. In the event of the property or income left to the child or children, of a subscriber, at his demise, or which may subsequently devolve, or be in any wise acquired by them, being such as to afford the full amount specified for their education and maintenance, they are not considered entitled to any allowance from the fund; and any allowances which may have been granted before such accession of property or income are to be discontinued.

Fourthly. The allowances granted from the fund, for the maintenance and education of children, are to be paid in advance half yearly, to their guardians or relatives; or to such persons as may be intrusted with the disbursement of the sums allotted for them, either by the managers of the fund in India, or by the agents to the fund in England; who from time to time are to adopt such measures as may appear necessary for the purpose of ascertaining any accession of Property, which would render the allowances from the fund liable to abatements or discontinuance.

Fifthly. The provision so made from the fund, for the maintenance and education of female children, ceases on their marriage, or on their being settled in any profession or employment; and the provision for male children ceases on their being settled in any profession or employment or on their attaining the age of twenty-one years. But any requisite sum, not exceeding five hundred pounds, may be appropriated to the benefit of male or female children by the managers of the fund in India; or by the agents of the fund in England, at the time of their marriage, or of their being settled in any profession.

For children who may be in India when admitted to the fund, and who may be sent to England for their education, with the concurrence of the managers, passage money, if requisite, is to be supplied from the fund, not exceeding one thousand Sicca Rupees for each child. An allowance for passage money, not exceeding one hundred pounds also to be granted if it appear necessary, for the return to India of any children admitted to the fund, who after completing their education in Europe, may return to India.

In all cases of application being made to the fund for assistance to the family of a deceased subscriber, an authenticated copy of the will of the deceased, or if he shall have died intestate, a full authentic statement of any property left by him, and of the legal heirs thereto, must be submitted for the information of the managers and subscribers. A general meeting of subscribers has full power to reject the application for aid from the fund, where it may appear, that a subscriber, leaving property, has made an improper devise of it, with a view to throw his family upon the

fund, or has purposely neglected to make a disposition of his property for the benefit of his family.

Those who may arrive in India, and subscribe to the fund, are considered subscribers from the time of their arrival at Fort William, or from the commencement of any allowances receivable by them as civil servants of the Bengal establishment. But no civil servant of this presidency in India, who may not accept the invitation given to him by the preceding article, within six months after his arrival in India, shall be admitted to become a subscriber.

The contribution of every subscriber to the fund, ceases upon his leaving India, to return to Europe, but in the event of his returning to India, and again receiving allowance from the company, he is to renew his contribution from the commencement of such allowance.

If a subscriber to the fund, at the time of his retiring from the service to return to Europe, shall have contributed, by his previous monthly payments to the fund, the principal sum of five thousand sicca rupees; or if, on his quitting the service, he shall pay to the fund what may be wanting to complete his contribution to that amount; such contribution shall entitle the family of the subscriber, on his demise, to the benefits of the institution, under the several provisions herein-stated, or such as may be hereafter established, in like manner as if his death had taken place during his residence and actual subscription to the fund in India. The family of any subscriber to the fund, who may die during his temporary absence from India for the recovery of his health, are also considered entitled to the benefits of the fund, under the existing rules of it, whether such subscriber may have contributed more or less than five thousand sicca rupees. In all other cases, if the deceased member of the institution shall not have been an actual subscriber to the fund at the time of his death and shall not have contributed five thousand sicca rupees to the fund, it shall be at the option of the subscribers to admit his family to the benefits of the fund or otherwise.

If a subscriber to the fund shall be dismissed from the service, he shall cease to be entitled to the benefits of the institution, and his widow and children, shall in like manner, have no claim to the benefit of the institution.—But in such case the amount of his actual contribution to the fund, shall be returned with interest, at the rate of ten per cent per annum.

If a subscriber shall be suspended from the service, he shall, during the period of his suspension, cease to be entitled in his own person to the benefits of the institution: but in the event of his restoration, he shall be restored to his former rights.

A subscriber suspended from the service, shall however, have the option of receiving back the amount of contributions, in

the same manner as in the case of persons finally dismissed from the service, but if he should take advantage of this clause, he shall cease to be entitled to the benefits of the institution, either for himself or family, as in the case of persons finally dismissed from the service.

If a subscriber, being suspended from the service, shall die during the period of suspension, his widow and children shall be entitled to the full benefits of the institution, excepting in the case of his receiving back the amount of his contribution.

The Indian Cawney is in proportion to the English Acre as 1 is to 1,3223 or as 121 is to 160.

To reduce Indian Cawnies to English Acres; multiply the given number of Cawnies by 160, and divide the product by 121, the quotient will give the number of Acres, and the remainder by the Fractional part of an Acre—Or multiply the Cawnies by 1,3223, and the product (cutting off 4 places to the right hand) will be the same, and the figures so cut off are the Decimal parts of an Acre.

SILVER.

The old Bombay Rupee is the same as was coined at Surat under the Mogul Government.

It weighed 178,213 grains, and contained 1,24 per cent. of alloy. By an ancient agreement with the Nabob of Surat, the Rupee of both Governments was to circulate through both, at an equal value; while they mutually pledged themselves to keep up the coin to its exact standard of fineness and weight. The Nabob however did not keep to this agreement, for his Rupees were found soon afterwards to contain, instead of 1,24 per cent. of alloy, no less than 10,12, and even 15 per cent. The consequence of this was, that all the Bombay Rupees were carried to Surat to be re-coined, this mint was entirely stopped in its silver coinage for more than 20 years, and the whole of the circulation of silver was occupied by the Surat Rupee.

In this situation of things, the merchants could not afford to coin their bullion here, and Bombay was long without a silver coinage of its own; when Government, in 1800, ordered the Surat Rupee to be struck in this mint, and since that time the Rupees have been kept at an equal value in both mints. In both, the silver Rupee weighs 179 grains, and contains 7,97 per cent. of alloy.

GOLD.

In the year 1774 the gold Mohur was made of the same weight with the silver Rupee; it was ordered to be of the fineness of a Venetian, and to pass for 15 silver Rupees. In this coinage therefore 14,9 grains of silver represented one grain of gold; for such as the proportion between the quantity of gold in this gold Mohur and the silver in 15 old Bombay Rupees. When the Surat silver cur-

rency had occupied our circulation, this proportion, between gold and silver, was quite destroyed; so that gold coined according to the regulation of 1774, was now exchanged for no more than 13 times its weight of silver, and often for much less.

In order to remedy this, and to bring back the coins of gold and silver to nearly their ancient proportions, and their relative value in the market, it was ordered in 1800, that the gold Mohur should be of the same weight as the silver Rupee, that it should contain the same quantity of alloy, and that it should pass for 15 Rupees. At present, therefore, in our coins, 15 grains of silver represent one of gold.

Coins of gold have never circulated as a coin either at Surat or in the Mahratta states on this side of India. They are occasionally carried to those parts, but it is only as bullion.

The following Table was drawn from actual assays; the first column contains the alloy in one hundred parts of each of the different coins; the second column contains their weight in grains. From these two columns the value of the whole of the coins may easily and with perfect accuracy, be ascertained.

Table shewing the Centesimal parts of Alloy, in various Coins, and their Weight in Grains, &c.

Although the foregoing tables represent the commonly received standard of the gross weights at Bombay and Surat, it is not only impossible to lay down a rule whereby to judge what commodities in the market are separately governed by them; but there is a great variety of articles, too numerous to distinguish here, in the sale of which the foregoing relations do not obtain, particularly with respect to the *Surat Maund*, which, notwithstanding it is said to contain only 40 Seers, or 37 Pounds, 7 Ounces, and 6 Drams, is sometimes 41, 2, 3, through all the intermediate gradations up to 46 Seers: nor is the Candy uniformly confined to 20 Maunds: for example, Pepper and Sandalwood are sold by the *Bombay Candy* of 21 Maunds, and Cotton, the great staple commodity of their market, by the *Surat Candy* of 21 Maunds.

As if it touch 96, and is to be sold at 4 under touch, then from 96 take 4 the remainder is 92; then is 9, two-tenths of silver to be paid for one of that of gold. If gold is at 96 touch, and to be sold at 8 above touch, then add 8 to 96, the sum is 104; then are 10, four-tenths of silver to be paid for one of gold.

"We agree in thinking, that 'a method of preserving animal substances, and all kinds of vegetables, with their natural qualities and virtues,' is an art which may often be the means of relieving humanity, and of affording occasionally no inconsiderable aid to medicine, as it alters and impairs in the smallest degree the natural properties of the substances employed; and in all its applications makes addition to the wholesome luxuries and substantial comforts of life."—*Edinburgh Review, No.* 45.

SYMBOLIC ILLUSTRATIONS OF THE HISTORY OF ENGLAND, with a Narrative of the Principal Events. By Mary Anne Rundall, of Bath, author of the Grammar of Sacred History.

" With a series of ingenious Symbols, this lady has succeeded in representing all the great transactions of our country, from the conquest, which threw a momentary shade over her glories, to the memorable deeds that filled up the measure of her renown on the fields of Waterloo.

" In the present work, Miss Rundall has rendered an essential service to the Rising Generation."—*Augustan Review, June* 1816.

"Originality, utility, and elegance, are qualities not always found combined in modern publications, but they evidently belong to the present work. The History of England, from the earliest times, is here set forth in a series of nearly 300 Symbols, or Emblematical Representations; each descriptive of some epocha, or important transaction or event, which is the subject of a chapter in the adjoining letter-press.

"On the utility of such a work, particularly to that class of readers for whose benefit it is designed, there can scarcely be a doubt. We recommend this work to the patronage of the public, but in particular to those who, like our Fair Author, are concerned in the EDUCATION OF YOUTH."—*European Magazine, February* 1816.

THE CLOUD MESSENGER OF CALIDASA, translated by H. H. Wilson, Esq. of Calcutta.

"The excellence of Mr. Wilson's version, regarding it only as an English work, lifts him far above the humble, though useful rank of translator. His poetical organs seem to seize on the poetry of his author and make it his own. We feel, in a word, that his translation can only be written by a poet."—*Vide Lord Minto's Speech, 20th September* 1813.

Extract from the Critical Review of June 1814.

"To draw an animated picture of the gradual rise of a vast and extended empire, is an undertaking of no small importance. It requires an intimate personal knowledge of the features to be statistically, geographically, and commercially described—an intimacy with the native languages—a facility of access to documents of esteemed veracity, from antiquity, progressively to the present day:—together with taste, experience, superior attainments, and a style flowing and perspicuous, to give interest to, and impress conviction on the mind of the reader. However arduous this abour, we venture to pronounce the volumes before us, to be worthy the public patronage.

"Our author tells us, and with truth, that the commercial concerns within the limits of the East India Company's Charter, are so ittle known in Great Britain; that any attempt to elucidate them must always be acceptab'e, but more particularly so at the present time, when the public attention is much directed to the conside-ation of East-India affairs. His knowledge has arisen from a twenty-five years' active employ in the service of the Company, and in commercial pursuits in England, immediately connected with it. His geographical and historical materials have been selected from the best authorities: and personal unwearied re-earch has eventually enabled him so to compile and to digest the whole of this excellent work, that it is at once profound, curious, entertaining, and instructive.

"Upon the whole we have found infinite pleasure in the perusal of these volumes, which we heartily recommend to the public. If the language be not strictly elegant it is minutely descriptive, and the work is the most pleasing and correct on the same subject recollect to have met with."

THE SPIRIT OF THE TIMES,

Or ORIENTAL MIRROR;

A MONTHLY COMPENDIUM OF INTELLIGENCE, POLITICAL AND COMMERCIAL.

Price to Subscribers £1. 10s. per annum.

The want of a periodical Publication, recording events as they are and free from extraneous and uninteresting matter, has been long felt and acknowledged by every person connected wits extensive Empire in India; more particularly since the passing of the Ship Letter Act, by which the expence, difficulty, and uncertainty of transmitting packets of Newspapers have been so considerably increased, as almost to supersede the possibility of gratifying Gentlemen residing abroad with this source of information and amusement.

To obviate these inconveniences, and to compres within a small compass the important occurrences in the Western hemisphere, is the peculiar object of "THE SPIRIT OF THE TIMES." It will embrace the most interesting intelligence, political and commercial, foreign and domestic; the arrivals and departures of East-India shipping; the state of the Markets for th e productions of India, &c. &c., regularly inserted according to the rder of time; and on the Commerce and Resources of British India, some original communications will occasionally be found, which will throw light on those important and interesting subjects. If it shall be found to merit a continuation of that liberal patronage it has already experienced, and which justified the idea of its utility, neither expence nor diligence shall be spared to render it the most eligible work of the kind that has hitherto appeared, and an acceptable present to relations and friends abroad. Interesting official reports, and documents relative to India, which may be presented to the House of Commons, will occasionally be printed in a supplementary sheet.

"THE SPIRIT OF THE TIMES" will be closely printed on the best paper, and published monthly, by Subscription, payable in

London. Gentlemen abroad desirous of receiving it regularly, are requested to give instructions to their friends in this country, to have their names and proper address inserted in the List of Subscribers; and the Editor undertakes to forward it by the first packet or other ship that sails after its publication.

Extract of the General Letter from the Honourable Court of Directors to the Bengal Government, dated July 3, 1817.

"*Par.* 2. The Proprietor of a new Monthly Newspaper, entitled "*The Spirit of the Times,*" has preferred an application to us, requesting it may be allowed "to pass free of postage throughout the Company's dominions in India for a few months, to aid its circulation."

3. "It has been represented to us that this publication will embrace the most interesting intelligence, political and commercial, foreign and domestic, to the entire exclusion of all extraneous and uninteresting matter; and as in our opinion it is not improbable that a periodical work of this description may prove highly desirable to many persons in India, we are induced so far to countenance the said publication, as to authorize you to allow it to pass free of postage through the territories subject to your government, for a period not exceeding six months after the receipt of this dispatch."

Printed by Samuel McDowall, 95, Leadenhall Street, for the Proprietor, William Milburn, 134, Leadenhall Street, late of the H. C. Service, Author of "ORIENTAL COMMERCE," by whom Subscribers' Names will be received; and by Black, Kingsbury Parbury, and Allen, Booksellers, No. 7, Leadenhall Street.
